Subject: Closing Gap on Forestry -- The Team's last version

Thanks folks for your edits to the document. I think it looks good. I did have a few comments/questions which I provided on the clean version that Jayne sent. It may be that the best option to finalize the document is to carve out a time to walk through with you the few comments I had.

I also just talked to Dennis about finalizing this document and having it ready for when the time is right to move forward with engagement with the State on forestry. While things are on hold until things settle a bit about who remains as the Governor's advisor(s), he said that he is eager to see the final document and is ready to reengage at the earliest opportunity. In the meantime, he continues to have conversations and meetings with Dick Pedersen.
